

Digital Delivery Policy

EFFECTIVE DATE: JUNE 2026

This Digital Delivery Policy explains how PK DIGITAL LLC, operating as NOREN Agency (“NOREN Agency”, “we”, “us”), delivers its services and deliverables. It should be read alongside our Service Delivery information, Terms of Service, and Refund Policy.

01 Digital services only

All NOREN Agency engagements are digital services. There is no physical product, and nothing is shipped. We do not sell, deliver, or post any physical goods.

02 How delivery happens

Deliverables, access, and materials are provided digitally — through a client portal or workspace, shared documents and files, email, video calls, and similar means agreed for your engagement.

03 When delivery is made

Delivery is considered made when the relevant work, access, document, or material is provided or made available to you. Where a client portal or workspace is provided, access is treated as delivered when access is granted.

04 Delivery timing

Because our work is bespoke, delivery timing depends on the engagement scope, the kickoff date, and your timely provision of access, approvals, and inputs. We will share indicative timing for your engagement; this is not a guaranteed delivery date unless expressly agreed in writing.

05 One-time purchase, iterative work

Your purchase is a one-time, upfront payment for the engagement tier or scope you select. Some work is ongoing or iterative in nature — for example, strategy refinement, content, or reporting within the agreed scope — but this does not constitute a subscription or a recurring charge unless separately agreed in writing.

06 Custom scopes

Custom proposals and alternative scopes may have different delivery arrangements, which are described in the relevant proposal or statement of work.

07 Contact

Questions about digital delivery can be sent to contact@norenagency.com or to PK DIGITAL LLC, 2335 E. Atlantic Blvd, STE 200, Pompano Beach, FL 33062, United States.
